

JORDAN WILLIAMS

Senior Software Engineer
| Backend | Distributed Systems |
| Voice AI | LLMs | AWS |

DRIVE & MOTIVATION

I'm passionate about people, technology and solving problems that have a meaningful impact. I enjoy combining engineering, software and creative problem-solving to build products that are genuinely useful and improve people's experiences.

Languages:

- Python, TypeScript, C++.

AI:

- LiteLLM, LLMs, GenAI, agentic systems, Voice AI, STT/TTS, Deepgram, VAPI, Soniox, LiveKit, Pipecat.

Backend:

- FastAPI, Django, Node.js, event-driven systems, microservices.

Cloud:

- AWS, Terraform, ECS, Lambda, RDS, CloudWatch.

Data:

- PostgreSQL, MongoDB, ingestion pipelines.

Engineering

- CI/CD, telemetry, observability, testing, system design.

- System design & architecture
- Technical ownership
- Cross-functional communication
- Pragmatic problem solving
- Rapidly adapting to new technologies

EXPERIENCE

Contact Harald, Melbourne, AU

- Owned backend and voice platform across real-time, asynchronous voice AI systems.
- Migrated bespoke LiveKit/Pipecat voice pipeline to VAPI. Improving scalability and reducing operational complexity.
- Built STT evaluation tooling covering accuracy and latency; improved short-utterance handling by 15% and registration transcription by 25%.
- Reduced monthly infrastructure costs by 60% through identifying and eliminating unnecessary resource usage.
- Reduced client onboarding toil and introduced engineering/process improvements across the team.
- Key skills: Voice AI, LLM/agentic systems, real-time asynchronous systems.

daisee, Melbourne, AU

SENIOR SOFTWARE ENGINEER - SEPT 2024 - AUG 2025: 11 MONTHS

AUDIO ENGINEER - MAR 2023 - SEPT 2024: 1 YEAR 6 MONTHS

- Helped streamline client onboarding and ingestion. Key focus: scalability.
- Implemented LLMs for call scoring and summarisation.
- Wrote tooling enabling internal stakeholders to self-serve. Toil reduction: 60%.
- Reduced technical debt (by ~40%). Unified, scalable data ingestion. Telemetry throughout.
- Championed: code quality, unit testing and a cultural shift within the team.
- Key skills: Software design (Event Driven Systems), Python, AWS, IaC (Terraform),

Coder Academy, Remote, Melbourne, AU

ACADEMIC MENTOR FULL-STACK WEB DEV BOOTCAMP - OCT 2022 - MAR 2023

- Managed web development lessons and supported ~30-40 students.
- Key skills: education, teaching, mentoring, curriculum design.

Mimi Hearing Technologies, Berlin, DE

AUDIO RESEARCH ENGINEER - OCT 2018 - FEB 2021: 2 YEARS 5 MONTHS

- Ownership, development and release planning for >5 software projects:
 - Medically certified: hearing testing, analysis and result computation.
 - Internal research packages for research teams (MIR, ML models).
- Focus areas: MIR, Speech Intelligibility, Subjective Preference studies.
- Setup a better pipeline for, and improved QA for audio output.
- Bridge between Research and Product teams. Advanced the state of (ML) models.
- Key skills: Python, C++, data-science/analytics, machine learning, audio engineering.

Internships

VARIOUS ROLES, MULTIPLE TIME-FRAMES

- Completed internships at more than 10 different companies spanning 4 countries.
- Examples: Fotech Solutions, Sky, Shure, AECOM, Cole Jarman, JackFM.

EDUCATION

University of Southampton, UK

MASTERS OF ACOUSTICAL ENGINEERING (MENG) - FIRST CLASS HONOURS

SEPT 2014 - JUN 2018: 3 YEARS 10 MONTHS

- Graduated Valedictorian/best in final year.
- Dissertation won the "Institution Best Project Certificate" from the IMechE.
- Wakeboarding club president, student ambassador work and other responsibilities.

VOLUNTEERING

Music in Exile, Welcome Merchant, Reaching Out In The Inner West

VARIOUS ROLES: MAR 2023 - CURRENT

- Regularly volunteer for a lot of differing community and music based organizations.
- Reaching out in the Inner West: Volunteer weekly supplying food, bedding, clothing etc to ~500+ in need individuals.
- Music in Exile: Volunteer at various events for a not for profit record label. Working with artists from culturally and linguistically diverse backgrounds.

ReDI School of Design Interaction, Berlin, DE

TEACHER, INTRO TO PYTHON, JUL 2020 - FEB 2021: 7 MONTHS

- Taught and coordinated the "Intro to Python Course", 4 hours of lessons per week.
- ReDI is a not-for-profit technology school teaching free courses to >6000 students.
 - Diverse students >95 nationalities, primarily with forced migration backgrounds

Divers Den, Frankland Islands & Reef Restoration Foundation, Cairns, AU

DIVEMASTER AND INSTRUCTOR TRAINING, JAN 2022 - JUN 2022: 7 MONTHS

- PADI Instructor. Volunteer coral tree out-planting Reef Restoration Foundation.
- Led and guided: ~30+ snorkelers, 4+ divers and ~30+ island nature walks.
